.NET development

Work History

2022-03 - Current

.NET Developer

Tata Consultancy Services, Bengaluru

- Developed C# code to integrate with AWS services such as AWS SDKs, AWS Lambda, S3, DynamoDB, and API Gateway.
- Implemented AWS best practices in C# code to ensure secure and efficient interactions with AWS resources.
- Conducted thorough unit testing using testing frameworks like MSTest to validate code functionality and reliability.
- Collaborated with cross-functional teams to gather requirements and design scalable AWS solutions tailored to business needs.
- Troubleshoot and resolved issues related to AWS integration and C# code performance.
- Write clear, concise, and accurate natural language descriptions (NLs) for AWS SDKs, API operations, and service integrations in C#.
- Ensure that NLs align with AWS documentation standards, follow best practices, and are easily understandable by developers of varying skill levels.
- Work closely with the documentation team to integrate NLs into the AWS documentation portal.
- Assisted in the development and deployment of data models for PII data analysis.
- Conducted data validation and verification to ensure the accuracy and completeness of datasets.

2019-11 - 2022-03

Programmer Analyst

Cognizant Technology Solution, Pune

- Provide end-user support and technical assistance for SharePoint applications and services.
- Collaborate with cross-functional teams to gather requirements and implement SharePoint solutions.
- Maintain and troubleshoot SharePoint sites, libraries, lists, and permissions.
- Assist in the design and development of SharePoint workflows and forms.
- Conduct user training sessions to enhance SharePoint adoption and usage.

Education

2015-08 - 2019-07

B.Tech: Computer Science And Engineering

Haldia Institute of Technology - Haldia, West Bengal

Certifications

AWS Cloud Practitioner Essentials
